Hyunsoo Lee

Ph.D. in Data Science [Google Scholar]
Postdoctoral Researcher - Interactive Computing Lab
✉️ hslee90@kaist.ac.kr 🏡 https://hslee90.gitub.io

I design human-centered systems for care, privacy, and wellbeing—
developing interactive technologies that support users, inform responsible data practices,
and engage with real-world challenges in digital health and AI

RESEARCH INTERESTS

- Usable Privacy and Security
- Interaction Design in Digital Health & Wellbeing
- Human-AI Interaction in Sociotechnical Systems
- Context-Aware Computing in Ubiquitous Environments

EDUCATION

Korea Advanced Institute of Science and Technology (KAIST)- Daejeon, Korea

- **Ph.D in Data Science** *Sep 2019 – Aug 2023*
  - Adviser: Uichin Lee
  - Thesis: *Exploring User-Friendly Data Privacy Support in Multimodal Sensor-Based Digital Healthcare Contexts*
- **M.S. in Knowledge Service Engineering** *Sep 2017 – Aug 2019*
  - Adviser: Uichin Lee
  - Thesis: *Online behavior change support systems with commitment devices : a case study*

Chungnam National University - Daejeon, Korea

- **B.A. in School of English Literature & International Economics** *Mar 2009 – Aug 2013*
  - GPA: 4.35/4.50 (Graduate *Cum Laude*)

WORK EXPERIENCE

Postdoctoral Researcher at KAIST - Daejeon, Korea *Sep 2023 – Present*

- Understanding and conceptualizing collaborative privacy control in smarthome
- Designed and evaluated informatic systems supporting mental health (personal/family)
- Conducted LLM-based interaction studies to understand user perceptions of AI privacy risks

Previous Research & Industry Experience

Researcher at KAIST - Daejeon, Korea *Oct 2015 – Jun 2016*

- Instructional platform contents design and DB analysis

Research Intern at KIRD - Daejeon, Korea *Jan 2014 – Jan 2015*

- R&D platform DB analysis

Intern at TripVi (Startup)- Seoul, Korea *Aug 2013 – Dec 2013*

- Mobile UI/UX design and market data analysis

HONORS & AWARDS

- Special Recognition for Outstanding Reviews (ACM CHI) *Dec 2024*
- Special Recognition for Outstanding Reviews (ACM CHI) *Dec 2023*
- Outstanding PhD Student of the year, Graduate School of Data Science *Dec 2022*
- Outstanding TA for Education4.0 Program at KAIST (Spring semester) *Sep 2022*
- Outstanding PhD Student of the year, Graduate School of Data Science *Dec 2021*
- Outstanding PhD Student of the year, Graduate School of Data Science *Dec 2020*

TALKS

An Empirical Study on LLM-Driven Privacy Attacks and Assessing Privacy Risks *Feb 2025*
- Multi-Modal AI Safety Benchmark Workshop, IEEE BigComp'25
  - Introduced privacy threats in LLM interactions and interface implications for user trust

User-Friendly Privacy Design in Ubiquitous Computing *Jun 2024*
- PhD Forum, KCC'24
  - Discussed human-centerd privacy design for context-aware computing

Supporting User Data Privacy in Digital Healthcare Systems *Apr 2024*
- Graduate Scool of Information Science, Yonsei University
  - Shared technological strategies for user empowerment in health-related data privacy

Enhancing UX in Security & Privacy for Multi-Modal Environment *Nov 2023*
- Security & Privacy Team, Samsung Research
  - Introduced interaction design approaches for privacy-preserving smart environments

Applying Human-Centered Design to Security & Privacy Research *Nov 2023*
- Graduate School of Convergence Security, Sungkyunkwan University
  - Introduced HCI-driven approaches to usable security in sociotechnical systems

Privacy and Security in Ubiquitous Computing Contexts *May 2022*
- Graduate School of Computing, Chungnam National University
  - Shared research overview of user-centered privacy in sensor-rich environments

Understanding User Experiences in Behavior Change Support Systems *Feb 2022*

■ Outstanding paper presentation, HCI Korea'22

• Presented empirical findings on goal-setting and user engagement in persuasive systems

TEACHING EXPERIENCE

■ **Co-Instructor**, Human-Computer Interaction (KAIST CS Dept, Fall 2023)

■ Teaching Assistant, Human-Computer Interaction (KAIST CS Dept, Spring 2022)

■ Teaching Assistant, Human-Computer Interaction (KAIST CS Dept & Industrial System Engineering, Spring 2021)

SUPERVISION & MENTORSHIP

■ **Youngji Koh (Ph.D. Student)** - KAIST, *Mar 2023 – Present*

• Co-led the design and implementation of a domestic informatics system for mental health

• Advised on statistical/qualitative analysis and research writing; paper under revision for IMWUT'25

■ **Seolyeong Bae (Undergraduate)** - GIST, *Jun 2023 – Aug 2023*

• Guided mobile app design for contextual user consent interaction

• Mentored on user study method; paper published at CHI'24

■ **Emily Law (M.S. Student)** - KAIST, *Jan 2023 – Jun 2023*

• Guided mobile app design for contextual user consent interaction

• Supervised user study and master's thesis development

■ **Hyesoo Park (M.S. Student)** - KAIST/Georgia Tech, *Mar 2022 – Present*

• Guided the design and implementation of informatics system for child development

• Advised on qualitative analysis and research writing; paper under revision for IMWUT'25

■ **Seheon Kim (Undergraduate)** - KAIST, *Jun 2022 – Aug 2022*

• Guided the living lab design for IoT-based health data collection

• Mentored on research ideation and user study methods

■ **Juhwan Yong (Undergraduate)** - Kangwon National University, *Jun 2022 – Aug 2022*

• Guided the living lab design for IoT-based health data collection

• Mentored on research ideation and user study methods

■ **Jinhyuk Jang (Undergraduate)** - KAIST, *Jan 2022 – June 2022*

• Mentored the design of privacy-aware data visualization for wearable sensors

• Advised on user study and research writing; paper published at KCC'22

■ **Youwon Shin (M.S. Student)** - KAIST, *Apr 2021 – Dec 2022*

• Co-led the design and implementation of a family informatics system

• Supervised user study and master's thesis development

FUNDED RESEARCH PROJECTS

📁 **Digital Healthcare & Human-Centered Informatics**

■ **Mental Health Measurement and Preemptive Care Technology Research in Smart Homes**

** LG Electronics | Mar 2024 – Present **

• Participated in the development of *LifePensieve*, a domestic health informatics tool for mental healthcare

• Analyzed smart home behavioral data and its correlation with emotional wellbeing

■ **Smarthome Technology to Support Healthy Family Life**

** Hanssem Co., Ltd. (Home appliances and Furniture), Apr 2021 – Mar 2024 **

- Built a living lab-based IoT data pipeline for real-world sensing at home
- Designed and developed *FamilyScope*, a sensor-based family informatics system that enables reflection of a family's affective states and social interactions
- Co-designed *SELaD*, a system that supporting children's social-emotional learning

■ **Non-Face-to-Face Treatment Platform for the Depression Management**

** Ministry of Science and ICT | Apr 2021 – Dec 2021 **

- Designed and developed *PriviAware*, a mobile app supporting contextual consent and interactive data exploration to enhance user privacy awareness
- Focused on balancing usability and privacy in digital healthcare platforms

📁 Privacy-Enhancing Interaction & Ethical AI

■ **Development of Digital Innovative Element Technologies for the Early Prediction of Complex Diseases and the Expansion of Telemedicine**

** Institute for ICT Planning & Evaluation (IITP) | Apr 2025 – Present **

- Designing multi-AI agents for older adults' healthcare and data security
- Exploring LLM-driven privacy risk mitigation in personalized AI environments

■ **Constructing Multimodal Benchmark Dataset for AI Safety**

** Telecommunications Technology Association (TTA), KAKAO | Oct 2024 – Dec 2024 **

- Developed a privacy-aware framework for curating multimodal datasets
- Developed security protocols and risk assessment guidelines for ethical dataset construction

■ **Developing User-Driven Interpersonal Data Management Systems Supporting Group-Based User Privacy for Multimodal Sensor-Based Digital Healthcare Services**

** National Research Foundation of Korea (NRF) / New York University (NYU) | Sep 2023 – Present **

- Conducted user research on group-based privacy expectations in shared healthcare settings
- Introduced *OurData*, a data-sharing framework enabling collaborative privacy control

📁 Positive Computing & Persuasive Interaction

■ **Development of Contextual Big Data Collection Technology based on Crowdsourcing and Large-Scale Public Datasets**

** National Research Foundation of Korea (NRF) | Oct 2019 – Mar 2021 **

- Designed privacy-preserving persuasive interfaces for data contribution
- Conducted in-the-wild user study (N=100) to explore users' privacy concerns

■ **Development of Persuasive Interaction SW Source Technology and Platform for Positive Computing**

** National Research Foundation of Korea (NRF) | Oct 2018 – Jun 2021 **

- Participated in the development of *GoldenTime*, a persuasive mobile system for timeboxing and mindful device use
- Contributed to *LocknType*, a proactive intervention prompting task-based lockout for app avoidance

ACTIVITIES

Academic Service

- **Reviewer:** *ACM CHI* (2021-2025), *ACM UbiComp* (2024-2025), *ACM CSCW* (2023-2024), *Human-Computer Interaction Journal* (2022), *ACM MobileHCI* (2020)
- **Session Chair**: *ACM CHI 2024 — Privacy in Real Contexts*

Community & Committee Involvement

- **Contributor:** *AIAAIC* (AI, Algorithmic and Automation Incidents and Controversies) (Jun-Sep, 2024)
- **Committee:** *HCI@KAIST* (2022)

SKILLS

Research Methods

- Usability Testing, User Studies, Qualitative Analysis (e.g., thematic coding), Statistical Analysis (SPSS, R)

Programming & Data Analytics

- Python, R, Prompt engineering (for LLM)

Design

- Figma
